scholtes

For over 100 years, Scholtès has been developing high-precision products for every cook.

The integrated technology of Scholtès creations offers users a wide variety of expressions and invites them to focus on what is essential: exploring their creative freedom.

So let the cooking show begin: mixing, sprinkling, mincing, deglazing, stuffing. Each of these controlled gestures creates a suspended moment unveiling the underlying personality and the soul of their author.

Cooking with Scholtès is a feast for the senses and does justice to the pleasure of creating and savouring.

With scholtes, express yourself.

When experience meets with creativity

The Kitchen. Territory for expression and symbol of French art de vivre, it's where you indulge, share and transmit. More daring and audacious than ever, Scholtès awakens the senses and taste buds of the user in passing down its culinary heritage. In unveiling modern and elegant appliances with a timeless design, Scholtès gives any user the opportunity to express their creativity in unleashing their emotion and joy of cooking.

P Boost

Disruptive by nature

Both daring and inventive, the art of cooking is the skilful blend of ingredients and the subtle balance of components. Flagship of French cuisine, Scholtès offers appliances with well-thought-out ergonomics and design to unleash all cooks' creativity and free them from any technical constraints. Today, the brand is reinventing itself in merging practicality with authenticity to introduce a new generation of features suiting anyone's needs - from everyday cooking to the free expression of inner culinary talents.

Smart & Intuitis

Scholtès is unveiling its collection of connected appliances equipped with the most advanced technologies, allowing cooks to express their creativity to the full.

The connected oven features an Intuitis TFT screen with high-definition colours, combined with a guilloched control knob that combines optimum grip with a refined design. The simple, intuitive navigation presents an attractive menu of useful options for everyday use.

The understated, elegant induction hob features an Intuitis TFT touch interface, so you have all the settings you need at your fingertips.

Saucepans are instantly identified on the screen when they are put onto the hobs, which you simply touch to adjust the settings.

With the new connectivity of the Intuitis range, which can also be accessed via the Myscholtès* application, both expert and novice cooks have access to brand new functions opening up a world of infinite culinary experiences.

*The MyScholtès application can be downloaded free of charge from your iOS and Android appstore.

Exploring new gastronomic horizons, orchestrating culinary gestures to tame the material and mastering the art of precision: this is what Scholtès is offering with this new line of household appliances called "EXPLORER".

This range brings together the brand's full expertise with its savoir-faire to reveal anyone's talents. This rebirth marks the beginning of a new chapter for Schotlès with state-of-theart products whose assertive design fits harmoniously into all modern kitchens.

With Scholtès Express yourself!

Design & Ergonomics

The new Scholtès ovens' external casing reveals harmonious lines marked by contrasts and reveal top-quality materials such as metal or brushed stainless steel for a contemporary look. Knurled-finish knobs offering excellent grip demonstrate well-thought-out ergonomics. The perfect alignment allows you to combine appliances either horizontally or vertically. Discover other impressive features like the door that opens and closes smoothly, the rail system that comes fully out, or the microwave that opens automatically.

and are sized to fit easily into the dishwasher. The silicone supports allow you to move from the oven to the table without the risk of burning surfaces.

for dough to rise (homemade bread, brioche, etc.) and for fermented cooking (yoghurt).

Master internal cooking temperatures

The cooking probe is an essential tool to cook all your dishes perfectly and with complete control. It measures the temperature at the heart of the food, whether it is meat, fish, terrine or even home-baked bread. Simply programme the desired temperature and the oven will take care of the rest.

Preserve the quality of your food

Like steam cookers, the steam function uses the heat of steam to cook food, preserving its full nutritional quality.

Enjoy full freedom

Scholtès' technique has been developed to deliver the best user experience with this new cooking area with no zone boundaries for total modularity. Give free rein to your desires, position up to 6 cookware on your induction hob and let yourself be guided by the assisted functions: steam, grill, temperature maintenance... any combination is possible.

Foolproof safety

Scholtès makes no concessions when it comes to safety: residual heat indicators, automatic stop in the event of an overflow, pots detection and control locking – an ideal function for child safety and for keeping the settings unchanged when the hob is being cleaned.

Designed for ease of use

Scholtès has placed ergonomics at the heart of the development of its new induction hobs. Enjoy utmost convenience and never miss a dish thanks to the clear display of time and power for each burner, direct access and the Boost key. With its full glass and bevelled edges design, this induction hob offers elegance and ease of cleaning.

The induction hob that makes everything possible

Gas Hobs

Timeless lines

Thanks to a timeless design, Scholtès' products fit into any kitchen style. From ergonomic control knobs to double-zone cast iron grids to move pots easily: everything has been designed for a neat and aesthetic look.

Fingertip control of your cooking

With its triple crown, the 3,5 kW burner makes all your cooking processes a success, from the gentlest to the liveliest, for simmering, boiling and more.

Comfortable in your own workspace

Because feeling comfy is important when cooking, Scholtès has developed 75 cm-wide hobs which fit into standard dimensions: upgrade your equipment without modifying your worktop.

Dish-Washers

Opt for smart efficiency

The automated program is based on a system with sensors that enable the automatic adjustment of the temperature and the length of the cycle according to dirtiness for the guarantee of optimal results.

Get the most of your space

A small cutlery drawer has been conveniently placed on the upper part of the dishwasher. This highly practical feature allows you to free up space in the lower part for larger pots and maintain your cutlery in order for utmost space optimisation.

As clean as a whistle

Working together or separately, the 3 wash arms spray the tank perfectly and reach every corner for impeccable cleaning.

Made to be convenient

The sliding case is equipped with sliding hinges allowing the installation of up to 757 mm height dishwasher front faces. The size of the plinth is reduced preventing any obstruction when opening the dishwasher. The minimal interspace makes it ideal for setting up a raised dishwasher.

High-performance in every respect to meet the most demanding requirements

Opt for the best lighting

Equipped with one LED panel on the side and another at the top, Scholtès' refrigerators offer perfect visibility throughout the unit.

Keep it cool

The fan air duct technology is integrated in Scholtès' refrigerators to guarantee uniform distribution of the cold. Your food keeps all its nutritional properties and is kept from drying out. The No-Frost system in the freezer enables uniform circulation of non-humid cold air to prevent frosting from forming.

A touch of genius

Discover the Modulo system, a clever sliding installation on the refrigerator doors that allows hassle-free shelves adjustment and new storage possibilities for your bottles.

Keep your greens fresh and crunchy

The vegetable drawers include a humidity control system to perfectly keep your fruits and vegetables fresh and crunchy.

Store or freeze your food in the best possible way

Sliding hinges
Reversible door
Noise level 40 dB

Saucepan Collection

The incomparable cooking quality of TRIPLY stainless steel

Scholtès saucepans are made up of three layers (18/8 stainless steel/aluminium/induction stainless steel) for even cooking from the bottom to the top of the sides. The professional-quality 18/8 stainless steel interior guarantees healthy cooking, while the aluminium core ensures optimum heat distribution over the entire cooking surface and the ferromagnetic stainless steel exterior is induction-compatible.

Perfect adaptability to all cooking styles

Cook a wide range of dishes with these stainless steel products. Make creamy sauces using saucepans of different diameters. Sear meats at a high temperature in the frying pans to ensure that they are both golden brown and tender.

Designed to last

The handle is secured by two special alloy rivets that guarantee stability and durability over time. It can be used to place items in the oven at up to 260°C to keep them warm. The range is also compatible with all types of hobs (electric, ceramic, gas, halogen and induction).

(+

STAINLESS STEEL STOVE 28 cm

SOPO28I

Dishwasher safe

Keep warm in the oven ≤260°C

Triply stainless steel (18/8 stainless steel), aluminium, induction stainless steel
Ø 28cm
3/4 persons
Fast, even temperature rise
Thick base
Capacity: 2 litres
Ergonomic handle
Compatible with all hobs

STAINLESS STEEL STOVE 24 cm

Triply stainless steel (18/8 stainless steel), aluminium, induction stainless steel Ø 24cm 2/3 persons
Fast, even temperature rise
Thick base
Capacity: 1 litre
Ergonomic handle
Compatible with all hobs
Dishwasher safe
Keep warm in the oven ≤260°C

STAINLESS STEEL SAUCEPAN 20 cm

Triply stainless steel (18/8 stainless steel), aluminium, induction stainless steel
Ø 20cm
3/4 persons
Fast, even temperature rise
Thick base
Capacity: 3 litres
Ergonomic handle
Compatible with all hobs
Dishwasher safe
Keep warm in the oven ≤260°C

STAINLESS STEEL SAUCEPAN 16 cm SOCA161

Triply stainless steel (18/8 stainless steel), aluminium, induction stainless steel Ø 16cm
1/2 persons
Fast, even temperature rise
Thick base
Capacity 1,5 litres
Ergonomic handle
All hobs, including induction
Dishwasher safe
Keep warm in the oven ≤260°C
